

## **Pulikesi C. R**

*Young Professional III (Scientific)*

Originally from Chennai, Dr. Pulikesi completed his schooling and college degrees from Chennai before pursuing his doctorate from the University of Wisconsin-Madison, USA. With over 8 years' experience in plant molecular biology and evolution, his research focused on the evolution of inflorescence architecture and the underlying genetic reasons, in plants. He is interested in looking at polyploidy and the resultant novelties in plants. His hobbies are gardening, dog training and trekking.
